Bonuses

The policyholder would be eligible to participate in the profits (or surplus) arising from the portfolio of such policies. The Company will carry out an annual valuation (as per the current IRDAI regulations) at the end of each financial year and may declare following bonuses.

a) Compounded Reversionary Bonus: This is a regular bonus expressed as a percentage of the total of Base Sum Assured and the reversionary bonus amount already attached to your policy. Any bonuses declared by the Company during first three policy years shall vest in the policy only after the policy has been in-force for full policy benefits during three policy years. However, this condition will not apply to policies resulting into claims by death during this period.

b) Final Bonus: The Company may pay a final bonus on the termination of the policy due to death, surrender or maturity.

The bonuses are dependent upon the performance of the relevant participating fund and are not guaranteed. *Please note that we apply bonus rates to your Sum Assured and accrued bonuses and not to the premium you have paid, as would happen in case of a fixed deposits with a bank So, the direct comparison of rates on these two investments would not be appropriate.*
